

## GRAM JAKI- 9218

1. Semi-spreading plant type with profuse branching.
2. Plant height is 35-37 cm.
3. Maturity of Pods 95-115 days.
4. Avg seed weight is 28.5 gm.
5. Very Bold, Golden Yellow, and smooth grain.
6. High yield 8-10 Qtls/Acer
7. Seed Rate 30 kg/Acer

## Vijay

- Tolerant to terminal moisture stress
- Resistant to Wilt
- Maturity of Pods 105-110 days
- High Yield 7 – 8 Qtls/Acer
- Seed Rate 30 kg/Acer

## VIRAT [KABULI CHANA] BENGAL GRAM

- This variety has a thin coat and is available in a range of colours from white to tan
- Resistant to wilt
- Maturity Period 108-118 Days
- High Yield 7 - 8 Qtls/Acer
- Seed Rate 35 kg/Acer
